GENESEO, NEW YORK

## Terms and Conditions of Sale

**Each Rate.** Less than 10 of a variety take "each" rate.

**10 Rate.** 10 up to 40 go at the 10 rate.

**100 Rate.** 50 or more take 100 rate.

All quotations are made subject to stock being unsold. All orders taken and contracts made are subject to crop losses through unavoidable causes.

**GUARANTEE.** We guarantee each tree to be in perfectly healthy condition, up to grade, and first-class when leaving our hands. All goods are sold f. o. b. Geneseo, and travel at the risk of the purchaser; but we stand ready to rectify any error which may occur on our part. All claims for errors must be made within five days after receipt of goods.

**RESPONSIBILITY.** We cannot assume any responsibility for failure arising from defective planting, adverse weather conditions, or faulty cultivation. In other words, we sell our trees at the lowest price consistent with quality, and will not replace, free, those which fail to grow. We exercise the greatest care to have all trees true to name, and will replace free or refund the money paid should any accidentally prove untrue to label; but, at the prices quoted in this catalog, it is mutually agreed between the purchaser and ourselves that our guarantee shall not render us liable for a greater sum than that originally paid for such trees as prove untrue to name.

**RESERVING ORDERS.** When purchasers desire stock reserved for several weeks after shipping opens, cash must accompany the order.

**TERMS OF PAYMENT.** Cash with order or satisfactory reference before shipment. C. O. D. shipments and shipments with sight draft attached will be made when 25 per cent of the amount is remitted before shipment.

**REMITTANCES.** Post-office or express money orders, or checks on New York banks. Make all remittances payable to Samuel Fraser Nursery, Inc.

## Spraying and Dusting Supplies

If you have any difficulty in securing these please write us. Dust your fruit trees and bushes instead of spraying. A hand duster costing \$18.00 will do for almost all gardens of 3 or 4 acres or less, and will do dwarf trees. You can control aphid on Roses, worms on the currants and the diseases at the same time. We have had excellent results from dusting our orchards. Write for Booklet.

### In Press.

“American Fruits.” Their Culture, Harvesting, Transportation and Distribution, by Samuel Fraser. About 700 pp. 200 illustrations.

This is written as a guide for the Amateur and Commercial grower of American Fruits. It covers all fruits in a simple manner and as fully as the space will permit. It is well illustrated, and describes the leading varieties of fruits quite fully. It is expected off the press in June, 1923.

**Hampshire Hogs.** We offer brood sows, young gilts and boars.

## *Essentials of Success in Fruit Growing*

Among the essentials for success in fruit growing are:

Capital which usually must be drawn on annually for a term of years to carry the tree to bearing age;

Knowledge regarding the plant, its needs and ways;

Wisdom in the utilization of the forces which affect the plant;

Longevity in order that one may reap the reward;

And most important of all, Common Sense in the utilization of all factors and forces, at all times.

In no one thing can this common sense be better manifest than in the selection of the tree, which is to receive all this care and attention, and upon which the labor of a hundred years is to be expended.

The tree is the great fundamental. It is the basic factor upon which all profits depend.

The cost of the tree is such a small item in the total cost of growing an orchard, that nothing but the best should be considered and the first opportunity the prospective planter has to exercise his common sense is in the selection of the right tree for his conditions.

The best trees are the only ones to plant. Price alone is not the measure of value.

If you have a problem and we can help you solve it we shall be happy to be called upon.

SAMUEL FRASER
